Text Only Mode: displays a modernized text on both sides. During audio-playback, a karaoke-style moving highlight indicates the line currently being voiced.

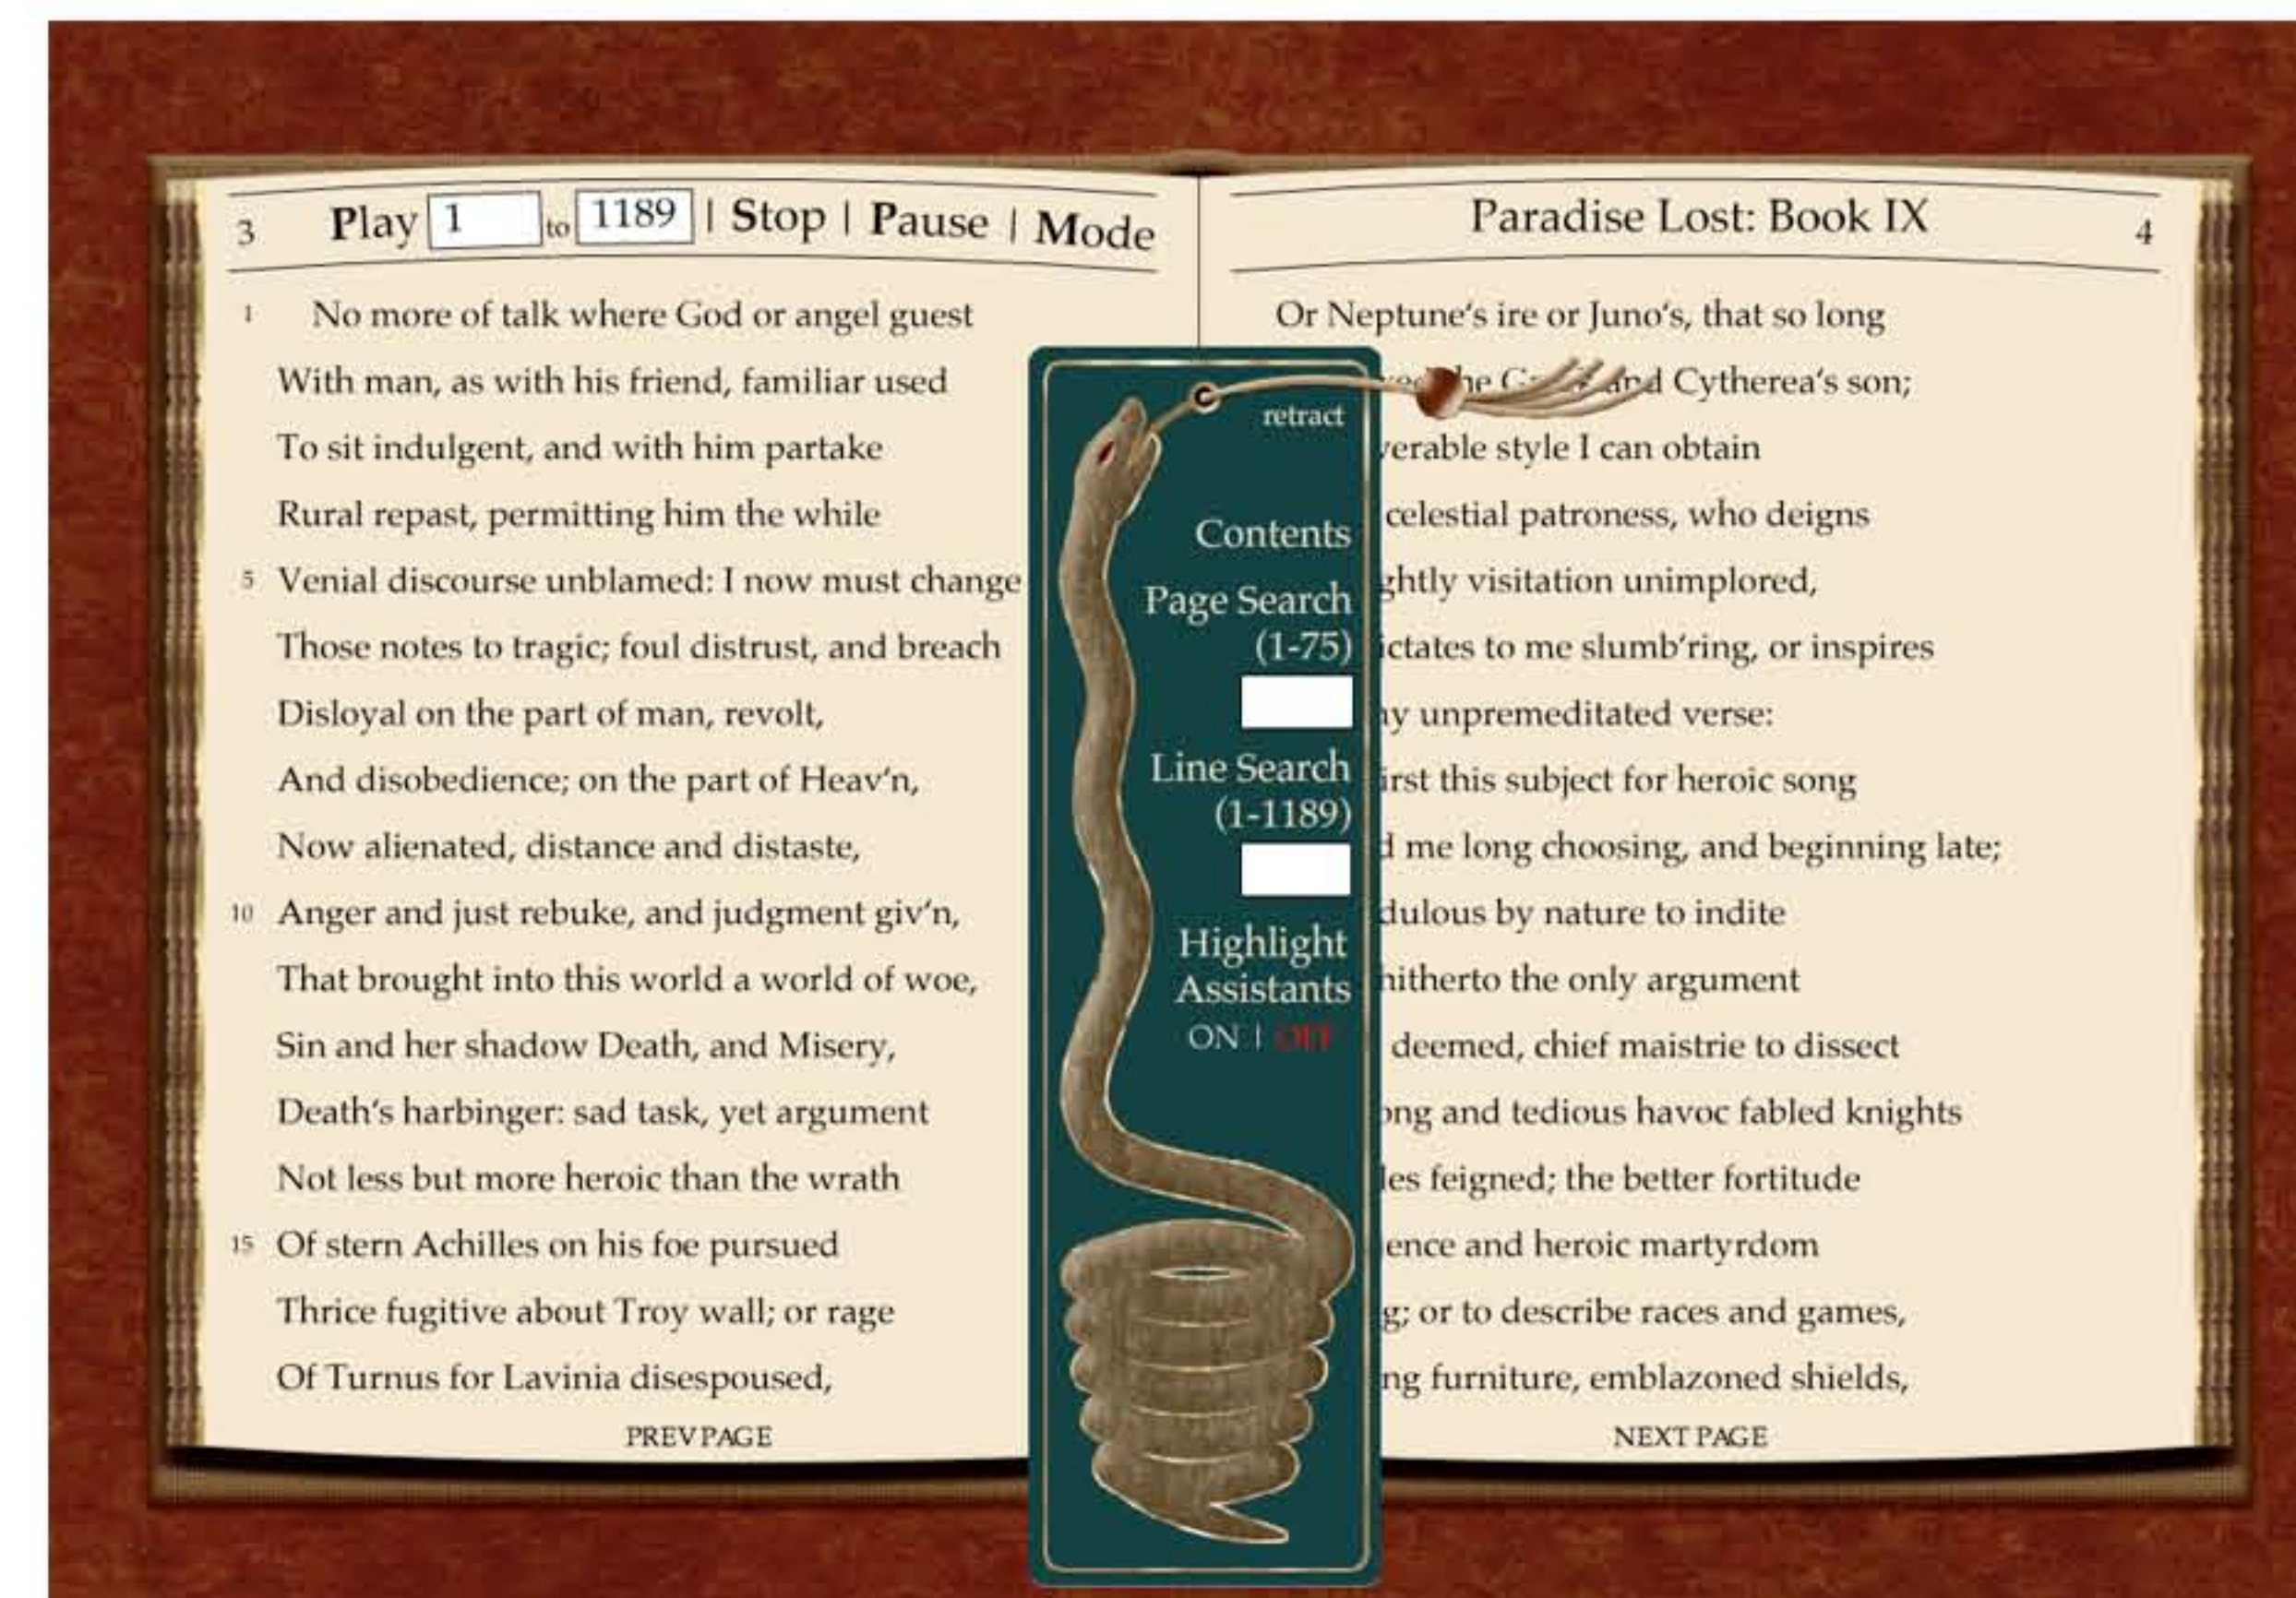

Annotation Mode: displays explanatory notes in parallel with the modernized text. When the user turns the page, the notes flip to the opposite side.

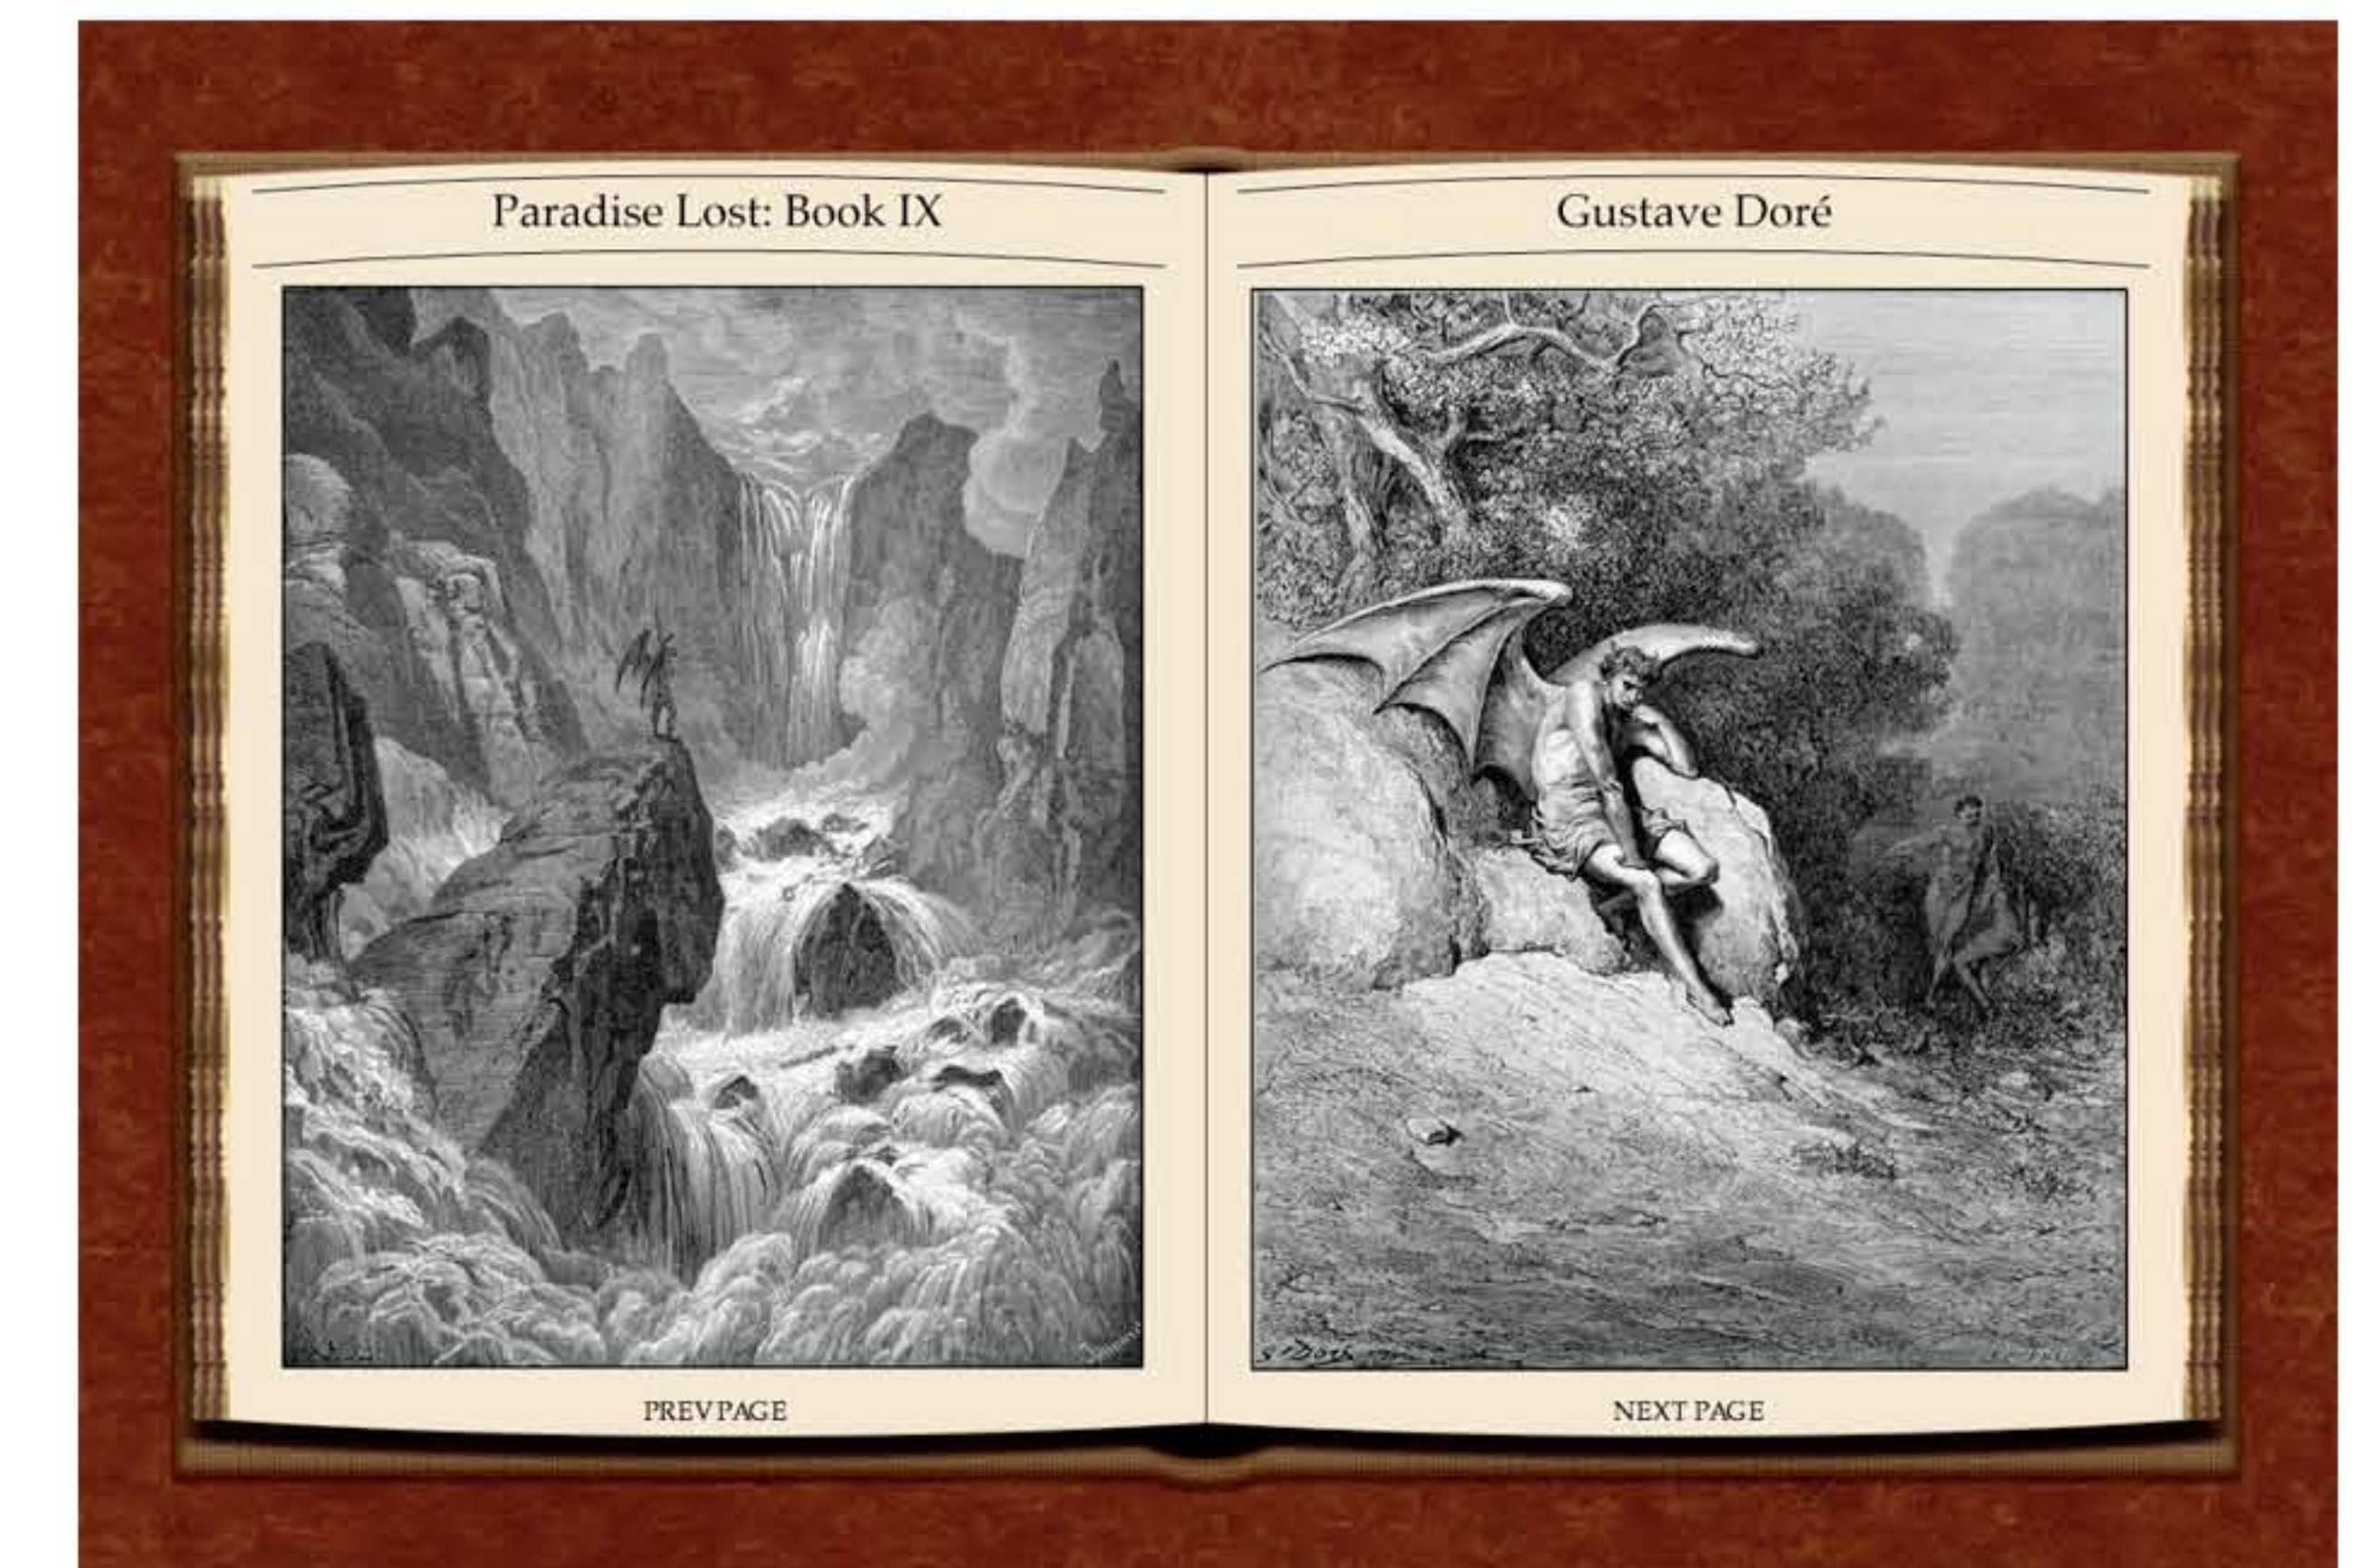

Comparison Mode: displays a transcript of the 1674 copy-text in parallel with the modernized text. The font is an approximation of the original.

Your-Notes Mode: allows the user to record personal marginalia. Notes are saved on the user's computer, from which they are imported for each new session.

Bookmark Control: Provides options for navigating the audiobook as well as a means of highlighting annotated keywords.

Illustrations Section: presents images by six artists depicting scenes from Book Nine, with brief commentaries on each image.
